REPRESENTATIVE EXPERIENCE

On every claim asserted, the District Court granted defendants' motion for summary judgment.

Represented national vacation ownership company as defendant in United States District Court for the Southern District of New York, where over 100 owners at The Manhattan Club had asserted various claims and touted damages of over \$100 million. The district court dismissed the single federal claim with prejudice and declined to exercise supplemental jurisdiction over the remaining claims.

Represented the vacation ownership company Bluegreen Vacations Unlimited, Inc. defending against a proposed class action filed in the United States District Court for the Southern District of Florida asserting claims under the Telephone Consumer Protection Act and seeking damages of over \$420 million. The district court denied class certification, and the Eleventh Circuit affirmed.

Represented national vacation ownership company defending against a proposed class action filed in the United States District Court for the Southern District of Florida asserting claims under the Military Lending Act and seeking to rescind

vacation ownership contracts entered into nationwide over at least the prior two years. After extensive discovery, the District Court affirmed the Magistrate's Report and Recommendation finding that the plaintiffs lacked Article III standing and dismissing the case. The Eleventh Circuit affirmed the dismissal.

Represented Bluegreen as plaintiff in Florida Circuit Court challenging a condominium board's refusal to hold free and fair owner elections for the condominium's board of directors. After years of litigation and discovery, the Circuit Court entered summary judgment and an injunction ordering a free and fair owner election. The Fifth District Court of Appeal affirmed that summary judgment order for Bluegreen.

Represented a publicly-traded holding company, BFC Financial Corporation, now BBX Capital Corporation, its subsidiaries, and certain officers and directors in 10 shareholder class actions, 8 of which were resolved with defendants paying no money to the plaintiffs. Included in those was the dismissal with prejudice of a complaint seeking to challenge the merger of BFC and BBX valued at over \$250 million because the Florida appraisal statute provided the exclusive remedy, which has since been affirmed by Florida's Fourth District Court of Appeal.

Represented Bluegreen defending against a proposed class action in the United States District Court for the Eastern District of Wisconsin alleging violations of the Wisconsin Timeshare Act and seeking to rescind about half of the vacation ownership contracts entered into in Wisconsin over about five years. The district court denied class certification.

Represented Bluegreen in putative class action brought in the United States District Court for the Southern District of Florida alleging claims of fraud and deceptive practices over the prior four years in selling well over \$1 billion in vacation ownership interests to purchasers nationwide. After filing a motion to dismiss on behalf of Bluegreen, the district court dismissed three of the four claims with prejudice. After the close of fact discovery and the completion of briefing on the plaintiffs' motion for class certification, plaintiffs withdrew their motion for class certification, abandoning the argument that Bluegreen's policies and procedures were fraudulent or deceptive, and took the position that doing so eliminated subject matter jurisdiction under the Class Action Fairness Act. After considering Eleventh Circuit precedent requiring dismissal for lack of subject matter jurisdiction if the case never should have been brought as a class action in the first place, the district court then dismissed the case for lack of subject matter jurisdiction.

Represented Bluegreen in putative class action brought in federal court under the Telephone Consumer Protection Act. After filing a motion to dismiss on behalf of Bluegreen, the named plaintiff voluntarily dismissed his claims with prejudice.
