Land Development/Land
Use/Zoning

OVERVIEW

Vinette Godelia focuses her practice on the defense and negotiation of complex land development approvals under Florida's growth management laws and local government regulations. She leads legal and expert consultant teams on planning issues throughout the state of Florida.

Vinette is a skilled negotiator and has successfully secured approvals for large-scale projects, including negotiating high-profile development agreements for clients that cumulatively exceed \$20 billion. She is also highly experienced in developing targeted revisions to comprehensive plans and land development regulations to facilitate site-specific project development.

Vinette has particular experience advising clients in resource extraction and energy operations ranging from due diligence to establishment of projects across the state to novel issues relating to the redevelopment of legacy mining lands for agricultural, residential, commercial and industrial uses.

Areas of Concentration:

Land Use & Zoning

Mining Operations & Resource Extraction – Permitting, Compliance, Enforcement

Energy and Utilities – Solar Power Permitting, Natural Gas Plants, Oil Exploration and Production

Development Agreements – Public-Private Partnership Agreements, Economic Development, Concurrency and Impact Fee Agreements

Comprehensive Plan and Land Development Code Amendments

Local Development Order Approvals – Annexation, Comprehensive Plan Amendments, Land Development Code Amendments, Conditional Uses, Variances, Right-of-Way Vacations

Special Exceptions, Special Uses, Variances, Code Enforcement – Local Code Enforcement Board Defense and Litigation

Comprehensive Plan Compliance & Consistency Challenges

Administrative Hearings & Appeals

Prior to joining the firm, Vinette was a Shareholder in a boutique law firm in Tallahassee, Florida. Before her legal career, she worked with Visit Florida, the state's official tourism organization, and served as head of the Mid-Atlantic office in Washington, D.C.

REPRESENTATIVE EXPERIENCE

Represents Mosaic, the world's leading integrated producer of concentrated phosphate and potash, in several matters relating to mine operations and permitting including work on over 50,000 acres in Manatee, DeSoto, Polk and Hardee Counties. Representation includes large area approvals, DRI rescissions, creation of comprehensive plan mining overlays, special exceptions, master plans and other development orders and resource impact approvals.

Represented the New Wales, Bartow Chemical Plant and Green Bay facilities in developing the regulatory and public involvement strategy for DRI exemptions and local government review of gypsum stack expansions in Polk County, Florida. The entitlements were supported by negotiations with the Department of Economic Opportunity (DEO) and Department of Environmental Protection (DEP) on mitigation of impacts involving significant monitoring requirements.

Represented Seminole Electric Cooperative in due diligence review of properties within its geographic service area to assess permitting hurdles for renewable energy projects in light of constantly changing state law and local regulations on these highly charged issues.

Represented Duke Energy with the development process for a new Combined Cycle Power Plant. The matter involved procuring land use entitlements including comprehensive plan amendments and rezoning approvals for a 1,640-megawatt combined cycle natural gas plant in Citrus County.

Represented Seminole Electric in the development process for a new Combined Cycle Power Plant. The matter involved procuring land use entitlements including comprehensive plan amendments and rezoning approvals for a 1,130-megawatt plant in Putnam County.

Served as lead counsel for large developer working collaboratively with Polk County, the Polk County School Board, and municipalities to develop a comprehensive strategy for the construction of transportation, water, sewer, recreation and school facilities to serve significant growth in eastern Polk County.

Represented client in the reworking of historic entitlements for a mixed use project located off Florida Interstate 4 in Polk County, Florida. The matter required the negotiation of significant changes to the regulatory scheme applicable to the project including the removal of development of regional impact restrictions through novel interpretations of state and local law, approval of new comprehensive plan and code amendments, negotiation of infrastructure related development agreements and other related issues.

Represented developer and conducted due diligence review before the City of Tallahassee and other community groups to allow the purchase and development of student focused multi-family housing development in a historic African-

American community. The project was met with significant public opposition and required negotiation of terms that the neighborhood could find acceptable to incorporate design elements and uses supportive of the history of the area and the neighborhood.
